

City of Bulverde
FY 2022 Street Maintenance
November 22, 2021

Addendum #1

Purpose:

The purpose of Addendum #1 is to provide responses to all the questions received during the open question period ending on November 19, 2021.

Questions and Responses

Q1: Did the City consider alternate roadway reconstruction methods for Old Boerne Road, i.e. cement stabilization?

Yes, the City considered other roadway reconstruction methods but ultimately chose to closely match the roadway reconstruction method that TXDOT has specified for the future expansion of state highway 46 and further re-alignment with Old Boerne Road.

Q2: Is the striping thermoplastic?

Pavement centerline striping and edge striping should be applied in accordance with TXDOT Items 666 and 678 for Type I marking materials, hot applied thermoplastic.

Q3: Is the Geotechnical report available for Old Boerne Road?

Yes, the Geotechnical report will be made available upon release of this addendum on the City website and CivCAST.

Q4 The instructions for the bid 2022 Street Maintenance states that “ Bid Bond, prepared on the form provided in the Project Manual” . There is no bid bond provided in the bid documents. Will the City accept the Surety’s bid bond who is authorized to do business in the state of Texas?

Yes, the City will accept the bid bond on an alternate form provided by an authorized Surety.
